The Applicant correctly noted the issues w Mrs Nelson and Mr Horvath, that being the horse/animal access and development concerns.

We have great relations w the Applicant and support the application however request that the concerns be made permanent on title. That is, that an animal right of way be established for a very small portion of impacted property, approx 100m long by 10m wide. Notwithstanding the great relationship we have with the Applicant, he may not always own the property.

I appreciate that Mr. Horvath's concerns are already addressed by current Rockyview building policy.
