Hello Bernice,

I am writing today, in regards to the Islamic Assembly request for land redesignation.

We oppose this development, a few reasons being:

- This land has been a generative location for numerous crops, for decades.
- This are is plentifully with wildlife, including a large herd of deer, moose, coyotes, foxes, rabbits, hawks, etc....
- This area is extremely close to a migratory path for numerous geneses of birds, including an endangered owl that has been spotted several times in the area over the last 6 months. (I don't recall the name) I was told by the bird watchers, there are only 11 known of in Canada.

- Imam Syed Soharwardy with the Al Madinah Calgary Islamic Assembly, has spoken out saying, "That cemetery has plenty of capacity for many years of future burials and is estimated to be using only around six to seven per cent of its 74 acres (30 hectares) for grave sites." - regarding the Cochrane Cemetery. "Yes, we have lots of capacity in our cemetery in Cochrane but at the same time there's a convenience to the communities". We are going to disrupt century family farmed land, the current community, and natural habitats for convenience?
- Substantial increase in traffic, will not only disrupt the area residence, but it is clear our road structure will not be able to take the excessive burden. For those of us who have lived in the area for 18 years + we have gone through, and still go through many months of damaged roads, including, cracking and substantial pot holes.
- This area is often bombarded with extreme winds. I have seen a silo fly across the road. We have a serious concern regarding garbage, flowers, notes, etc.. that are usually put on graves. This proposed burial site is immediately south of a canal that is managed by the Western Irrigation District, which is one of the world's largest water diversions, second only to the Nile River (geoks.ca)

These are but a few reasons, that do not fall under 'personal'.

I ask, you consider all of these, and exercise due diligence in researching the stats on all of these points.

The Clemens Family - [REDACTED]

RE: File #05205015 Application # PL20230050 / PL20230116

Attention Bernice Leyeza,

As adjacent landowners to these applications, we strongly oppose the Master Site Development Plan and land use change for this development. It is not compatible with the other existing uses in the area, which is primarily an agricultural community.

To serve Rocky View County's needs, it is essential to understand the limits and capabilities of the land resources and the location of these prime lands. That is why high classified soils must be protected and guided through sound and wise management.

Keith Dugdale, for
Dugdale Ranches Ltd.

Subject: RE: File #052050515

Hello Bernice,

I'm writing in response to the letter that was sent out November 1 asking for comments on application #s PL20230050 and PL20230116.

We are located at 250136 Range Road 274 Rocky View County and accordingly utilize McKnight Blvd and RR274 for personal and business use regularly. My primary concern would be that this change would bring into place a cemetery and funeral service that would create more traffic for the existing community while not providing a service to most of us living there as the cemetery's website states it is only for those of Muslim faith which most, if not all are not. Currently with the land being high quality soil with access to the canal I feel its best use is as it is currently zoned - for agriculture.

Thank-you for your consideration.

Jennifer Dorey

Attachments: Cemetery Development.pdf

To: Planning Services Department –

Rocky View County
262075 Rocky View Point
Rocky View County, AB T4A 0X2

I wrote the attached letter and sent it to ISL Engineering and Land Services last January. I was advised it was to have been added to the application and given to Rocky View County. I have attached it to this email again.

I am adamantly opposed to this proposal for a Cemetery Master Site Development Plan, for all the reasons stated in my letter. Just because this development now wants to redesignate the subject land from Agricultural, General District (A-Gen) to Special Public Service District does not change anything.

I am writing to express my strong opposition to the proposed Muslim Cemetery on the valuable agricultural land in our community. As a resident and stakeholder in our rural agricultural community, I am deeply concerned about the potential consequences of such a development on our area's existing uses and character.

Our agricultural land is the lifeblood of our community, providing sustenance, livelihoods, and a picturesque backdrop to our daily lives. The proposed cemetery, if approved, would not only take excellent agricultural land out of production but also introduce an element that is inherently incompatible with the essence of our community.

While I respect and appreciate the need for diverse burial options, I believe it is essential to consider the long-term impact of this proposal on our community. Agricultural land is a finite and irreplaceable resource, and converting it into a cemetery would irreversibly alter the landscape that defines our way of life.

In addition to the loss of productive land, there are concerns about the visual impact of a cemetery on our rural surroundings. Cemeteries often feature structures and landscaping that may not align with the natural aesthetics of our community, potentially diminishing the beauty that attracted many of us to live here in the first place.

I urge you to carefully reconsider the compatibility of this proposal with the existing uses and character of our community. It is crucial that any development respects and preserves the unique qualities that make our rural agricultural area special.

Thank you for your attention to this matter. I trust that you will carefully weigh the potential consequences of this proposal on our agricultural community and make a decision that aligns with the best interests of all residents.

Thank you.

Marvin and Beth Fredeen

SE5-25-27-W |

To start, we are registered land owners with an adjacent property to the proposed cemetery development, with historical farming roots in the area. We farmed this property for over 25 years and personally owned it for many of those years.

First, and most importantly, this piece of land is #1 classified soil which is a scarce commodity in the Rocky View County area alone.

Soil classifications of #3 and #4 would be more suitable for this proposed land use designation.

This property is a prime location for higher use agricultural production as there is increased reliance for our Alberta agricultural land to produce more to feed our Canadian population.

There are many factors changing in our world that are making local food production even more critical:

- GHG emissions from Canadian agriculture have stayed about the same for the last 20 years, even though food production has increased dramatically. Canadian farmland, particularly in the Prairies, captures more carbon than it releases.
- Agriculture helps slow climate change by storing carbon on agricultural lands; also, agriculture removes CO₂ from the atmosphere. If you look at what is happening in California, where we have always obtained many fruits and vegetables, climate change is very likely going to restrict the availability of this produce.
- With the government moving towards a plan to reduce emissions from fertilizer use in the country, farmers will now require more land base in order to grow what they are presently providing. Food production is going to suffer if we don't preserve our agricultural base.

The comments regarding the storm water management requirements were unclear as they pertained to the requirements of Rocky View County. Purposing a development with wetlands and storm waste management areas on a land area that has no standing water or low areas makes no sense. Again, removing #1 classified farmland for this purpose is ludicrous.

Also, according to the proposed diagram there is another storm waste management area proposed adjacent to the WID irrigation canal. Does that not pose the threat of the possibility of the storm water putting contaminants into the canal?

Secondly, the mission of the Western Irrigation District, over its 75 years of history, was to provide water for the benefit of farmers and agriculture. It is my understanding this parcel of land still has irrigation rights which are now purposed for public use with the land re-designation. Not only was this never the intention of WID but it definitely is not the best use of these water resources which are required for agricultural purposes both in this area and further downstream.

Finally, we understand the plan is to drill a well for the water requirement for the facilities. Has any research been done for this purpose? We personally have two wells, both at 225 feet with only .5 to .75 gallons per minute, and one well is not suitable for anything other than livestock. The existing well to the west of this property, shown on the diagram, is unfit for any consumption as it is full of E. coli. For over 40 years we owned Sec 31-24-27-W4 and water at that location was less than ideal with numerous

water systems to make it usable. Considering the huge number of people who would likely attend a funeral, we are not sure what the plan for water resources is or what the requirements actually might be, even with the consideration of a holding tank.

It was mentioned the reason the cemetery development was being purposed was the need for future use even though the present location in Cochrane is only at 5% capacity and will last for decades. In other words, it was said to be convenience not necessity. Perhaps due to the environmental impact of cemeteries, the future of the present cemetery concept may look completely different in 25 years anyway.

Well, further to the comment about need for future use, we need our prime #1 farmland for future use as well. Feeding our citizens cannot be ignored.

What consideration has been given to the increased traffic on Twp Rd 250?

We are not objecting to the concept of a cemetery development but the prime farmland that would be destroyed would be catastrophic. We have lived here for sixty years and while change is a given, we feel this development would be a detriment to the agricultural requirements of our community if developed on this particular parcel of land.

Also, we have viewed the conceptual rendering of this proposed development on the website and it looks quite lovely. In reality however, if you consider the condition and upkeep of the present Muslim Cemetery in Cochrane, and using it as a model for the proposed new development, we have serious concerns. It is less than picturesque and something we wouldn't want to have to look at every day.

In closing, we would like to, once again, reiterate the scarcity of good farmland in Rocky View County and to take a prime piece of #1 soil farmland out of production would be just wrong. There is no more farmland being developed and once it's gone it's gone.

We do not approve of this development nor are we in support.

We would appreciate a confirmation Read Receipt of this email please.

Sincerely,

Beth & Marvin Fredeen

RE: File #05205015 Application # PL20230050 / PL20230116

Attention Bernice Leyeza

We are close neighbors to the proposed development land. It is our opinion as farmers, and members of the community this land should not be used for a cemetery.

We feel this development would be better suited on land that is closer to the city that it would be catering to, this is a development that the city of Calgary should be factoring into their plans. This should not be built in the middle of a rural community.

We strongly oppose the idea of building a cemetery at this location and on some of the most productive farmland in the county.

Sebastiaan and Lindsay Borsboom

Hi,

My name is Carla Perry and i received a letter about an application by the planning services department of rockyview county about plans to redesignate the lands adjacent to mine , file # 05205015 application number PL20230050; P20230116, from A-GEN to S-PUB to facilitate the development of a cemetery and funeral services. I own 4 parcels of land that total 390acres that are adjacent and in the vicinity to this property . I have attended there information session they held and have asked many questions which were answered. I am in support of this, and i think it will make a great addition to our community . As current farmers , my family and i do not have any concerns in regard to this redesignation .

Hi folks,

Just curious on the status on this master plan ...

<https://www.rockyview.ca/Portals/0/Files/BuildingPlanning/Planning/UnderReview/ProposedMSDP/MSDP-Proposed-Cemetery.pdf>

I am supportive of this project and curious on timelines for this project moving along to the next step – rezoning?
If I understand the process.

Thanks very much!

Ray

TO WHOM IT MAY CONCERN

The Calgary Interfaith Council (CIC) is an all-volunteer organization comprised of interested clergy, lay leaders, and representatives of various faith institutions and communities. The primary mission of the CIC is promoting and modeling respect, understanding, and collaboration among the religious communities of Calgary and surrounding areas through education, dialogue, mutual worship experiences, and social justice. The Al-Madinah Calgary Islamic Assembly (AMCIA) is a well-regarded and prominent member of the CIC representing a broad spectrum of the Islamic faith followers from the southern subregion of Asia.

CIC is aware that the AMICA has proposed the development of the Riyadhul Jannah Cemetery in Rocky View County and the AMCIA has represented to the CIC that burials at the cemetery will be open to all people, regardless of religion, as long as per the by-laws of the proposed cemetery.

In light of the foregoing, this letter is to confirm that the CIC is in support of the development of the Riyadhul Jannah Cemetery as proposed by the AMCIA.

If you have any questions regarding this, feel free to contact the undersigned at daltonharding@gmail.com.

Regards,

Dalton J. Harding

I have no objection to this land use re-designation application at SE-05-25-27-W04M to support the future development of a Cemetery.

Signed

Al-Makkah Calgary Islamic Society

15205 Park Lane
Rocky View, AB T3P 1A6

July 1, 2024

Dear Rocky View Planning Department,

The Al-Makkah Calgary Islamic Society is writing to express our strong support for this redesignation application for the establishment of a cemetery. This initiative is vital for accommodating the religious practices and needs of our diverse Muslim community.

Islamic burial customs require that the deceased be buried as soon as possible, typically within 24 hours, in a simple, respectful manner. The body is washed, shrouded in a plain cloth, and laid to rest facing Mecca. Having a cemetery nearby ensures that these rites can be observed conveniently and quickly, providing families with the comfort of knowing their loved ones are honored according to their faith.

The proposed cemetery will serve all sects within the Muslim community, including Sunni, Shia, and other groups, ensuring that every family has a place to perform their religious rituals appropriately.

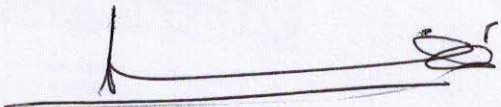

The current options for Muslim burials are limited and often involve significant travel, adding to the stress and emotional burden during times of loss. Establishing a local cemetery will alleviate these challenges, allowing families to focus on their spiritual needs and the grieving process.

We urge you to consider the positive impact this cemetery will have on our growing Muslim population in Rocky View and the surrounding areas. Your support will help create a compassionate and respectful environment for all.

Thank you for your consideration.

Respectfully,

Al-Makkah Calgary Islamic Society

July 1, 2024

Dear Planning Department,

I am writing on behalf of SKIC Language Institute to express our strong support for the re-designation of the subject property to establish a Muslim cemetery. We believe it is vital to have burial spaces that respect the religious traditions of all community members.

The Muslim community in Calgary is growing, and there is an increasing need for a local cemetery that meets their specific requirements. A nearby cemetery would ensure that families could perform burial rites according to their faith without the burden of traveling long distances.

This initiative will not only address a critical need but also reflect our community's values of inclusivity and respect for diverse religious practices. It is essential to provide spaces where all community members can honor their loved ones with dignity.

By approving this application, you will be taking a significant step toward supporting the needs of Calgary's Muslim population and reinforcing our shared commitment to diversity and mutual respect.

Thank you for considering this important application.

Sincerely,

SKIC Language Institute
Calgary, AB

CHESTERMERE MUSLIM COUNCIL

Dated: 05-07-2024

Dear Members of the Rocky View County Council,

We are writing this letter in strong support of the proposed establishment of a Muslim Cemetery in Rocky View County by the Muslim Cemetery of Calgary Fellowship.

The cemetery site is intended to serve the growing Muslim community in Southern Alberta by providing comprehensive burial services, which include facilities for storage, viewing, washing, and other rituals associated with interment in the Muslim faith. Moreover, they are committed to offering free burial services to families that cannot afford the costs, ensuring that all members of our community can perform these sacred rites with dignity.

The Muslim community is one of the fastest growing communities in Alberta. Like other faith communities, having a dedicated space to conduct final rites and to visit deceased loved ones is essential for our spiritual and emotional well-being.

Therefore, as the Chestermere Muslim Council, a non-profit organization dedicated to serving the needs of the Muslim community, we are pleased to support their application for a land use redesignation with Rocky View County. This project is not only a necessary step in addressing the needs of our community but also an inclusive initiative that respects the diverse cultural and religious practices in our region.

Sincerely,

Director

**Calgary**

Office of the Councillors

COUNCILLOR RAJ DHALIWAL

9 July, 2024

Re: Endorsement for the Muslim Cemetery in Rocky View County

I am writing to extend my strong support for the proposed Muslim Cemetery project in Rocky View County, initiated by the Muslim Cemetery of Calgary Fellowship.

This initiative is a significant and much-needed development for our diverse and expanding Muslim population in Southern Alberta. The proposed cemetery will provide essential burial services, including facilities for storage, viewing, washing, and other traditional rituals specific to the Muslim faith. The Fellowship's commitment to offering free burial services to families in financial need further underscores the inclusive and compassionate nature of this project.

As the Muslim community in our region continues to grow, it is crucial that we provide adequate spaces for them to perform their final rites and honor their deceased loved ones. The establishment of this cemetery will address a vital need within the community and foster a sense of belonging and respect for cultural and religious practices.

In my capacity as a Calgary City Councillor, I wholeheartedly support this application for land use redesignation in Rocky View County. This project promises to be a valuable asset, not just for the Muslim community, but for the entire region, promoting diversity and understanding.

Sincerely,

RAJ DHALIWAL
COUNCILLOR, WARD 5

Rockyview County Planning Department

Rocky View County, AB T4A 0X2

Dear Rocky View County Planning Department,

I am writing to express my strong support for the re-designation of the property at SE 5-25-27-W4M for the establishment of a cemetery. I live close to the proposed site and understand the profound need for such a facility in our area.

The communities in Rocky View and Calgary are experiencing significant growth. Currently, the closest Muslim cemetery is in Cochrane. The distance makes it difficult for families to honor their loved ones in a manner consistent with our religious practices.

Having a local Muslim cemetery would greatly benefit our community. It would provide a nearby and accessible place for families to perform burial rites promptly and visit their loved ones without the added burden of a long trip. Visiting cemeteries is a key aspect of our faith, offering a place for remembrance and prayer, and having this facility close by would make a significant difference.

The proposed location is ideal for our community's needs. As the population in our communities continues to expand, the need for a dedicated burial space becomes even more pressing. This cemetery would ensure that we have the necessary infrastructure to support our community both now and in the future.

I strongly urge you to approve this application. This is a noble cause, and one that would not be disruptive to the operations of the area. It will be a quiet, peaceful cemetery, even allowing for interfaith burials for the betterment of all members of our diverse community.

I humbly request you to approve this application, and I thank you for your time and consideration.

Sincerely,

HASSMAM SHAH

Rocky View County, AB T4A 0X2

Dear Rocky View County Planning Department,

I'm writing to support the application to re-designate the property at SE 5-25-27-W4M or a Muslim cemetery. As a Muslim resident of the local community, I can't stress enough how important this is for our community.

Our Muslim community is growing fast, and we need a local cemetery that meets our religious needs. Right now, the nearest option is in Cochrane, which makes it difficult for timely burials and inconvenient for families to take trips for remembrance.

The location being considered is convenient and close to our community, which would make it much easier for families to visit and honor their loved ones. Visiting cemeteries is an important part of our faith — we go there to reflect on life and remember those who have passed away. Having a dedicated space nearby would mean a lot to us.

Our community will keep growing, and with it, the need for burial space will only increase. Approving this application will help meet both current and future needs. This location is ideal, with close proximity to the largest concentrations of our community, and the need is evident.

Best regards,

NYLEA. SHAH

Rocky View County, AB T4A 0X2

Dear Rocky View County Planning Department,

I am writing to express my wholehearted support for the application to re-designate the property at SE 5-25-27-W4M to allow for the creation of a Muslim cemetery. As a member of the local Muslim community, I feel strongly about the importance and necessity of this project, not only for our present needs but for the future of our growing community.

Our community has seen significant growth over the past few years, with many families choosing to settle in this welcoming and vibrant area. Despite this growth, there remains a notable lack of local burial spaces that meet the specific needs of our faith. As Muslims, we have particular religious and cultural practices associated with burial, including the need for proximity to our community to facilitate timely burials according to Islamic rites.

The proposed location is particularly convenient due to its accessibility and proximity to our community. It will allow us to honor our deceased loved ones without the burden of traveling long distances, which can be both logistically challenging and emotionally taxing during times of grief. An integral part of Islamic faith is the practice of visiting cemeteries, spending time in them, and reflecting on life and the life of loved ones. These visits are not merely acts of remembrance; they are also moments of spiritual reflection and personal growth. Having a local cemetery would facilitate these important religious practices, allowing community members to engage without traveling large inconvenient distances.

In supporting this application, we are not only addressing an immediate need but also planning for the future. The Muslim population in our area is expected to continue growing, and with it, the demand for appropriate burial spaces. As well as this, portions of the Cemetery will be given for interfaith burial, allowing benefits for all members of our diverse Rocky View community.

I urge you to consider the positive impact that approving this application will have on our community. It is a compassionate and necessary step.

Thank you for your time and consideration.

An integral part of Islamic faith is the practice of visiting cemeteries, spending time in them, and reflecting on life and the life of loved ones. These visits are not merely acts of remembrance; they are also moments of spiritual reflection and personal growth. Having a local cemetery would facilitate these important religious practices, allowing community members to engage without traveling large inconvenient distances.

In supporting this application, we are not only addressing an immediate need but also planning for the future. The Muslim population in our area is expected to continue growing, and with it, the demand for appropriate burial spaces. As well as this, portions of the Cemetery will be given for interfaith burial, allowing benefits for all members of our diverse Rocky View community.

I urge you to consider the positive impact that approving this application will have on our community. It is a compassionate and necessary step.

Thank you for your time and consideration.

Sincerely,

Haseeb Ahmad Farooq (Name)

Dear Rocky View County Planning Department,

I'm writing to support the application to re-designate the property at SE 5-25-27-W4M or a Muslim cemetery. As a Muslim resident of the local community, I can't stress enough how important this is for our community.

Our Muslim community is growing fast, and we need a local cemetery that meets our religious needs. Right now, the nearest option is in Cochrane, which makes it difficult for timely burials and inconvenient for families to take trips for remembrance.

The location being considered is convenient and close to our community, which would make it much easier for families to visit and honor their loved ones. Visiting cemeteries is an important part of our faith — we go there to reflect on life and remember those who have passed away. Having a dedicated space nearby would mean a lot to us.

Our community will keep growing, and with it, the need for burial space will only increase. Approving this application will help meet both current and future needs. This location is ideal, with close proximity to the largest concentrations of our community, and the need is evident.

Best regards,

Dear Rocky View County Planning Department,

I am writing to express my wholehearted support for the application to re-designate the property at SE 5-25-27-W4M to allow for the creation of a Muslim cemetery. As a member of the local Muslim community, I feel strongly about the importance and necessity of this project, not only for our present needs but for the future of our growing community.

Our community has seen significant growth over the past few years, with many families choosing to settle in this welcoming and vibrant area. Despite this growth, there remains a notable lack of local burial spaces that meet the specific needs of our faith. As Muslims, we have particular religious and cultural practices associated with burial, including the need for proximity to our community to facilitate timely burials according to Islamic rites.

The proposed location is particularly convenient due to its accessibility and proximity to our community. It will allow us to honor our deceased loved ones without the burden of traveling long distances, which can be both logistically challenging and emotionally taxing during times of grief. An integral part of Islamic faith is the practice of visiting cemeteries, spending time in them, and reflecting on life and the life of loved ones. These visits are not merely acts of remembrance; they are also moments of spiritual reflection and personal growth. Having a local cemetery would facilitate these important religious practices, allowing community members to engage without traveling large inconvenient distances.

Dear Rocky View County Planning Department,

I am writing to express my strong support for the re-designation of the property at SE 5-25-27-W4M for the establishment of a cemetery. I live close to the proposed site and understand the profound need for such a facility in our area.

The communities in Rocky View, Calgary and Chestermere are experiencing significant growth. Currently, the closest Muslim cemetery is in Cochrane. The distance makes it difficult for families to honor their loved ones in a manner consistent with our religious practices.

Having a local Muslim cemetery would greatly benefit our community. It would provide a nearby and accessible place for families to perform burial rites promptly and visit their loved ones without the added burden of a long trip. Visiting cemeteries is a key aspect of our faith, offering a place for remembrance and prayer, and having this facility close by would make a significant difference.

The proposed location is ideal for our community's needs. As the population in our communities continues to expand, the need for a dedicated burial space becomes even more pressing. This cemetery would ensure that we have the necessary infrastructure to support our community both now and in the future.

I strongly urge you to approve this application. This is a noble cause, and one that would not be disruptive to the operations of the area. It will be a quiet, peaceful cemetery, even allowing for interfaith burials for the betterment of all members of our diverse community.

I humbly request you to approve this application, and I thank you for your time and consideration.

Sincerely,

Dear Rocky View County Planning Department,

I am writing to express my strong support for the re-designation of the property at SE 5-25-27-W4M for the establishment of a cemetery. I live close to the proposed site and understand the profound need for such a facility in our area.

The communities in Rocky View, Calgary and Chestermere are experiencing significant growth. Currently, the closest Muslim cemetery is in Cochrane. The distance makes it difficult for families to honor their loved ones in a manner consistent with our religious practices.

Having a local Muslim cemetery would greatly benefit our community. It would provide a nearby and accessible place for families to perform burial rites promptly and visit their loved ones without the added burden of a long trip. Visiting cemeteries is a key aspect of our faith, offering a place for remembrance and prayer, and having this facility close by would make a significant difference.

The proposed location is ideal for our community's needs. As the population in our communities continues to expand, the need for a dedicated burial space becomes even more pressing. This cemetery would ensure that we have the necessary infrastructure to support our community both now and in the future.

I strongly urge you to approve this application. This is a noble cause, and one that would not be disruptive to the operations of the area. It will be a quiet, peaceful cemetery, even allowing for interfaith burials for the betterment of all members of our diverse community.

I humbly request you to approve this application, and I thank you for your time and consideration.

Sincerely,

ARIF SIDDIQI (Name)

Dear Rocky View County Planning Department,

I'm writing to support the application to re-designate the property at SE 5-25-27-W4M or a Muslim cemetery. As a Muslim resident of the local community, I can't stress enough how important this is for our community.

Our Muslim community is growing fast, and we need a local cemetery that meets our religious needs. Right now, the nearest option is in Cochrane, which makes it difficult for timely burials and inconvenient for families to take trips for remembrance.

The location being considered is convenient and close to our community, which would make it much easier for families to visit and honor their loved ones. Visiting cemeteries is an important part of our faith — we go there to reflect on life and remember those who have passed away. Having a dedicated space nearby would mean a lot to us.

Our community will keep growing, and with it, the need for burial space will only increase. Approving this application will help meet both current and future needs. This location is ideal, with close proximity to the largest concentrations of our community, and the need is evident.

Best regards,

Dear Rocky View County Planning Department,

I am writing to express my wholehearted support for the application to re-designate the property at SE 5-25-27-W4M to allow for the creation of a Muslim cemetery. As a member of the local Muslim community, I feel strongly about the importance and necessity of this project, not only for our present needs but for the future of our growing community.

Our community has seen significant growth over the past few years, with many families choosing to settle in this welcoming and vibrant area. Despite this growth, there remains a notable lack of local burial spaces that meet the specific needs of our faith. As Muslims, we have particular religious and cultural practices associated with burial, including the need for proximity to our community to facilitate timely burials according to Islamic rites.

The proposed location is particularly convenient due to its accessibility and proximity to our community. It will allow us to honor our deceased loved ones without the burden of traveling long distances, which can be both logistically challenging and emotionally taxing during times of grief. An integral part of Islamic faith is the practice of visiting cemeteries, spending time in them, and reflecting on life and the life of loved ones. These visits are not merely acts of remembrance; they are also moments of spiritual reflection and personal growth. Having a local cemetery would facilitate these important religious practices, allowing community members to engage without traveling large inconvenient distances.

In supporting this application, we are not only addressing an immediate need but also planning for the future. The Muslim population in our area is expected to continue growing, and with it, the demand for appropriate burial spaces. As well as this, portions of the Cemetery will be given for interfaith burial, allowing benefits for all members of our diverse Rocky View community.

I urge you to consider the positive impact that approving this application will have on our community. It is a compassionate and necessary step.

Thank you for your time and consideration.

As Muslims, we have particular religious and cultural practices associated with burial, including the need for proximity to our community to facilitate timely burials according to Islamic rites.

The proposed location is particularly convenient due to its accessibility and proximity to our community. It will allow us to honor our deceased loved ones without the burden of traveling long distances, which can be both logistically challenging and emotionally taxing during times of grief. An integral part of Islamic faith is the practice of visiting cemeteries, spending time in them, and reflecting on life and the life of loved ones. These visits are not merely acts of remembrance; they are also moments of spiritual reflection and personal growth. Having a local cemetery would facilitate these important religious practices, allowing community members to engage without traveling large inconvenient distances.

In supporting this application, we are not only addressing an immediate need but also planning for the future. The Muslim population in our area is expected to continue growing, and with it, the demand for appropriate burial spaces. As well as this, portions of the Cemetery will be given for interfaith burial, allowing benefits for all members of our diverse Rocky View community.

I urge you to consider the positive impact that approving this application will have on our community. It is a compassionate and necessary step.

Thank you for your time and consideration.

Sincerely,

Ali Naveed.  (Name)

Dear Rocky View County Planning Department,

I am writing to express my wholehearted support for the application to re-designate the property at SE 5-25-27-W4M to allow for the creation of a Muslim cemetery. As a member of the local Muslim community, I feel strongly about the importance and necessity of this project, not only for our present needs but for the future of our growing community.

Our community has seen significant growth over the past few years, with many families choosing to settle in this welcoming and vibrant area. Despite this growth, there remains a notable lack of local burial spaces that meet the specific needs of our faith. As Muslims, we have particular religious and cultural practices associated with burial, including the need for proximity to our community to facilitate timely burials according to Islamic rites.

The proposed location is particularly convenient due to its accessibility and proximity to our community. Dear Rocky View County Planning Department,

I am writing to express my strong support for the re-designation of the property at SE 5-25-27-W4M for the establishment of a cemetery. I live close to the proposed site and understand the profound need for such a facility in our area.

The communities in Rocky View, Calgary and Chestermere are experiencing significant growth. Currently, the closest Muslim cemetery is in Cochrane. The distance makes it difficult for families to honor their loved ones in a manner consistent with our religious practices.

Having a local Muslim cemetery would greatly benefit our community. It would provide a nearby and accessible place for families to perform burial rites promptly and visit their loved ones without the added burden of a long trip. Visiting cemeteries is a key aspect of our faith, offering a place for remembrance and prayer, and having this facility close by would make a significant difference.

The proposed location is ideal for our community's needs. As the population in our communities continues to expand, the need for a dedicated burial space becomes even more pressing. This cemetery would ensure that we have the necessary infrastructure to support our community both now and in the future.

I strongly urge you to approve this application. This is a noble cause, and one that would not be disruptive to the operations of the area. It will be a quiet, peaceful cemetery, even allowing for interfaith burials for the betterment of all members of our diverse community.

I humbly request you to approve this application, and I thank you for your time and consideration.

Sincerely,

Muhammad Hassan (Name)

Dear Rocky View County Planning Department,

I'm writing to support the application to re-designate the property at SE 5-25-27-W4M or a Muslim cemetery. As a Muslim resident of the local community, I can't stress enough how important this is for our community.

Our Muslim community is growing fast, and we need a local cemetery that meets our religious needs. Right now, the nearest option is in Cochrane, which makes it difficult for timely burials and inconvenient for families to take trips for remembrance.

The location being considered is convenient and close to our community, which would make it much easier for families to visit and honor their loved ones. Visiting cemeteries is an important part of our faith — we go there to reflect on life and remember those who have passed away. Having a dedicated space nearby would mean a lot to us.

Our community will keep growing, and with it, the need for burial space will only increase. Approving this application will help meet both current and future needs. This location is ideal, with close proximity to the largest concentrations of our community, and the need is evident.

Best regards,

I'm writing to support the application to re-designate the property at SE 5-25-27-W4M or a Muslim cemetery. As a Muslim resident of the local community, I can't stress enough how important this is for our community.

Our Muslim community is growing fast, and we need a local cemetery that meets our religious needs. Right now, the nearest option is in Cochrane, which makes it difficult for timely burials and inconvenient for families to take trips for remembrance.

The location being considered is convenient and close to our community, which would make it much easier for families to visit and honor their loved ones. Visiting cemeteries is an important part of our faith — we go there to reflect on life and remember those who have passed away. Having a dedicated space nearby would mean a lot to us.

Our community will keep growing, and with it, the need for burial space will only increase. Approving this application will help meet both current and future needs. This location is ideal, with close proximity to the largest concentrations of our community, and the need is evident.

Best regards,

Mohamed Hassan (Name)

Dear Rocky View County Planning Department,

I am writing to express my strong support for the re-designation of the property at SE 5-25-27-W4M for the establishment of a cemetery. I live close to the proposed site and understand the profound need for such a facility in our area.

The communities in Rocky View, Calgary and Chestermere are experiencing significant growth. Currently, the closest Muslim cemetery is in Cochrane. The distance makes it difficult for families to honor their loved ones in a manner consistent with our religious practices.

Having a local Muslim cemetery would greatly benefit our community. It would provide a nearby and accessible place for families to perform burial rites promptly and visit their loved ones without the added burden of a long trip. Visiting cemeteries is a key aspect of our faith, offering a place for remembrance and prayer, and having this facility close by would make a significant difference.

The proposed location is ideal for our community's needs. As the population in our communities continues to expand, the need for a dedicated burial space becomes even more pressing. This cemetery would ensure that we have the necessary infrastructure to support our community both now and in the future.

I strongly urge you to approve this application. This is a noble cause, and one that would not be disruptive to the operations of the area. It will be a quiet, peaceful cemetery, even allowing for interfaith burials for the betterment of all members of our diverse community.

I humbly request you to approve this application, and I thank you for your time and consideration.

Sincerely,

SHARON S. KANDON

Dear Rocky View County Planning Department,

I am writing to express my wholehearted support for the application to re-designate the property at SE 5-25-27-W4M to allow for the creation of a Muslim cemetery. As a member of the local Muslim community, I feel strongly about the importance and necessity of this project, not only for our present needs but for the future of our growing community.

Our community has seen significant growth over the past few years, with many families choosing to settle in this welcoming and vibrant area. Despite this growth, there remains a notable lack of local burial spaces that meet the specific needs of our faith. As Muslims, we have particular religious and cultural practices associated with burial, including the need for proximity to our community to facilitate timely burials according to Islamic rites.

The proposed location is particularly convenient due to its accessibility and proximity to our community. It will allow us to honor our deceased loved ones without the burden of traveling long distances, which can be both logistically challenging and emotionally taxing during times of grief. An integral part of Islamic faith is the practice of visiting cemeteries, spending time in them, and reflecting on life and the life of loved ones. These visits are not merely acts of remembrance; they are also moments of spiritual reflection and personal growth. Having a local cemetery would facilitate these important religious practices, allowing community members to engage without traveling large inconvenient distances.

In supporting this application, we are not only addressing an immediate need but also planning for the future. The Muslim population in our area is expected to continue growing, and with it, the demand for appropriate burial spaces. As well as this, portions of the Cemetery will be given for interfaith burial, allowing benefits for all members of our diverse Rocky View community.

I urge you to consider the positive impact that approving this application will have on our community. It is a compassionate and necessary step.

Thank you for your time and consideration.

Sincerely,

Our Muslim community is growing fast, and we need a local cemetery that meets our religious needs. Right now, the nearest option is in Cochrane, which makes it difficult for timely burials and inconvenient for families to take trips for remembrance.

The location being considered is convenient and close to our community, which would make it much easier for families to visit and honor their loved ones. Visiting cemeteries is an important part of our faith — we go there to reflect on life and remember those who have passed away. Having a dedicated space nearby would mean a lot to us.

Our community will keep growing, and with it, the need for burial space will only increase. Approving this application will help meet both current and future needs. This location is ideal, with close proximity to the largest concentrations of our community, and the need is evident.

Best regards,

SUMERA USMA (Name)

Rocky View County, AB T4A 0X2

Dear Rocky View County Planning Department,

I am writing to express my wholehearted support for the application to re-designate the property at SE 5-25-27-W4M to allow for the creation of a Muslim cemetery. As a member of the local Muslim community, I feel strongly about the importance and necessity of this project, not only for our present needs but for the future of our growing community.

Our community has seen significant growth over the past few years, with many families choosing to settle in this welcoming and vibrant area. Despite this growth, there remains a notable lack of local burial spaces that meet the specific needs of our faith. As Muslims, we have particular religious and cultural practices associated with burial, including the need for proximity to our community to facilitate timely burials according to Islamic rites.

The proposed location is particularly convenient due to its accessibility and proximity to our community. It will allow us to honor our deceased loved ones without the burden of traveling long distances, which can be both logistically challenging and emotionally taxing during times of grief. An integral part of Islamic faith is the practice of visiting cemeteries, spending time in them, and reflecting on life and the life of loved ones. These visits are not merely acts of remembrance; they are also moments of spiritual reflection and personal growth. Having a local cemetery would facilitate these important religious practices, allowing community members to engage without traveling large inconvenient distances.

In supporting this application, we are not only addressing an immediate need but also planning for the future. The Muslim population in our area is expected to continue growing, and with it, the demand for appropriate burial spaces. As well as this, portions of the Cemetery will be given for interfaith burial, allowing benefits for all members of our diverse Rocky View community.

I urge you to consider the positive impact that approving this application will have on our community. It is a compassionate and necessary step.

Thank you for your time and consideration.

Sincerely,

Shazab USMAN (Name)

Dear Rocky View County Planning Department,

I am writing to express my strong support for the re-designation of the property at SE 5-25-27-W4M for the establishment of a cemetery. I live close to the proposed site and understand the profound need for such a facility in our area.

The communities in Rocky View and Calgary are experiencing significant growth. Currently, the closest Muslim cemetery is in Cochrane. The distance makes it difficult for families to honor their loved ones in a manner consistent with our religious practices.

Having a local Muslim cemetery would greatly benefit our community. It would provide a nearby and accessible place for families to perform burial rites promptly and visit their loved ones without the added burden of a long trip. Visiting cemeteries is a key aspect of our faith, offering a place for remembrance and prayer, and having this facility close by would make a significant difference.

The proposed location is ideal for our community's needs. As the population in our communities continues to expand, the need for a dedicated burial space becomes even more pressing. This cemetery would ensure that we have the necessary infrastructure to support our community both now and in the future.

I strongly urge you to approve this application. This is a noble cause, and one that would not be disruptive to the operations of the area. It will be a quiet, peaceful cemetery, even allowing for interfaith burials for the betterment of all members of our diverse community.

I humbly request you to approve this application, and I thank you for your time and consideration.

Sincerely,

Shayan Bakhsh (Name)

Rocky View County, AB T4A 0X2

Dear Rocky View County Planning Department,

I am writing to express my strong support for the re-designation of the property at SE 5-25-27-W4M for the establishment of a cemetery. I live close to the proposed site and understand the profound need for such a facility in our area.

The communities in Rocky View and Calgary are experiencing significant growth. Currently, the closest Muslim cemetery is in Cochrane. The distance makes it difficult for families to honor their loved ones in a manner consistent with our religious practices.

Having a local Muslim cemetery would greatly benefit our community. It would provide a nearby and accessible place for families to perform burial rites promptly and visit their loved ones without the added burden of a long trip. Visiting cemeteries is a key aspect of our faith, offering a place for remembrance and prayer, and having this facility close by would make a significant difference.

The proposed location is ideal for our community's needs. As the population in our communities continues to expand, the need for a dedicated burial space becomes even more pressing. This cemetery would ensure that we have the necessary infrastructure to support our community both now and in the future.

I strongly urge you to approve this application. This is a noble cause, and one that would not be disruptive to the operations of the area. It will be a quiet, peaceful cemetery, even allowing for interfaith burials for the betterment of all members of our diverse community.

I humbly request you to approve this application, and I thank you for your time and consideration.

Sincerely,

TARIQ MANZOR (Name)

Dear Rocky View County Planning Department,

I'm writing to support the application to re-designate the property at SE 5-25-27-W4M or a Muslim cemetery. As a Muslim resident of the local community, I can't stress enough how important this is for our community.

Our Muslim community is growing fast, and we need a local cemetery that meets our religious needs. Right now, the nearest option is in Cochrane, which makes it difficult for timely burials and inconvenient for families to take trips for remembrance.

The location being considered is convenient and close to our community, which would make it much easier for families to visit and honor their loved ones. Visiting cemeteries is an important part of our faith — we go there to reflect on life and remember those who have passed away. Having a dedicated space nearby would mean a lot to us.

Our community will keep growing, and with it, the need for burial space will only increase. Approving this application will help meet both current and future needs. This location is ideal, with close proximity to the largest concentrations of our community, and the need is evident.

Best regards,

Dear Rocky View County Planning Department,

I am writing to express my wholehearted support for the application to re-designate the property at SE 5-25-27-W4M to allow for the creation of a Muslim cemetery. As a member of the local Muslim community, I feel strongly about the importance and necessity of this project, not only for our present needs but for the future of our growing community.

Our community has seen significant growth over the past few years, with many families choosing to settle in this welcoming and vibrant area. Despite this growth, there remains a notable lack of local burial spaces that meet the specific needs of our faith. As Muslims, we have particular religious and cultural practices associated with burial, including the need for proximity to our community to facilitate timely burials according to Islamic rites.

The proposed location is particularly convenient due to its accessibility and proximity to our community. It will allow us to honor our deceased loved ones without the burden of traveling long distances, which can be both logistically challenging and emotionally taxing during times of grief. An integral part of Islamic faith is the practice of visiting cemeteries, spending time in them, and reflecting on life and the life of loved ones. These visits are not merely acts of remembrance; they are also moments of spiritual reflection and personal growth. Having a local cemetery would facilitate these important religious practices, allowing community members to engage without traveling large inconvenient distances.

In supporting this application, we are not only addressing an immediate need but also planning for the future. The Muslim population in our area is expected to continue growing, and with it, the demand for appropriate burial spaces. As well as this, portions of the Cemetery will be given for interfaith burial, allowing benefits for all members of our diverse Rocky View community.

I urge you to consider the positive impact that approving this application will have on our community. It is a compassionate and necessary step.

Thank you for your time and consideration.

Sincerely,

As Muslims, we have particular religious and cultural practices associated with burial, including the need for proximity to our community to facilitate timely burials according to Islamic rites.

The proposed location is particularly convenient due to its accessibility and proximity to our community. It will allow us to honor our deceased loved ones without the burden of traveling long distances, which can be both logistically challenging and emotionally taxing during times of grief. An integral part of Islamic faith is the practice of visiting cemeteries, spending time in them, and reflecting on life and the life of loved ones. These visits are not merely acts of remembrance; they are also moments of spiritual reflection and personal growth. Having a local cemetery would facilitate these important religious practices, allowing community members to engage without traveling large inconvenient distances.

In supporting this application, we are not only addressing an immediate need but also planning for the future. The Muslim population in our area is expected to continue growing, and with it, the demand for appropriate burial spaces. As well as this, portions of the Cemetery will be given for interfaith burial, allowing benefits for all members of our diverse Rocky View community.

I urge you to consider the positive impact that approving this application will have on our community. It is a compassionate and necessary step.

Thank you for your time and consideration.

Sincerely,

MUHAMMAD AKRAM (Name)

Dear Rocky View County Planning Department,

I am writing to express my wholehearted support for the application to re-designate the property at SE 5-25-27-W4M to allow for the creation of a Muslim cemetery. As a member of the local Muslim community, I feel strongly about the importance and necessity of this project, not only for our present needs but for the future of our growing community.

Our community has seen significant growth over the past few years, with many families choosing to settle in this welcoming and vibrant area. Despite this growth, there remains a notable lack of local burial spaces that meet the specific needs of our faith. As Muslims, we have particular religious and cultural practices associated with burial, including the need for proximity to our community to facilitate timely burials according to Islamic rites.

The proposed location is particularly convenient due to its accessibility and proximity to our community. Dear Rocky View County Planning Department,

I'm writing to support the application to re-designate the property at SE 5-25-27-W4M or a Muslim cemetery. As a Muslim resident of the local community, I can't stress enough how important this is for our community.

Our Muslim community is growing fast, and we need a local cemetery that meets our religious needs. Right now, the nearest option is in Cochrane, which makes it difficult for timely burials and inconvenient for families to take trips for remembrance.

The location being considered is convenient and close to our community, which would make it much easier for families to visit and honor their loved ones. Visiting cemeteries is an important part of our faith — we go there to reflect on life and remember those who have passed away. Having a dedicated space nearby would mean a lot to us.

Our community will keep growing, and with it, the need for burial space will only increase. Approving this application will help meet both current and future needs. This location is ideal, with close proximity to the largest concentrations of our community, and the need is evident.

Best regards,

Dear Rocky View County Planning Department,

I am writing to express my strong support for the re-designation of the property at SE 5-25-27-W4M for the establishment of a cemetery. I live close to the proposed site and understand the profound need for such a facility in our area.

The communities in Rocky View and Calgary are experiencing significant growth. Currently, the closest Muslim cemetery is in Cochrane. The distance makes it difficult for families to honor their loved ones in a manner consistent with our religious practices.

Having a local Muslim cemetery would greatly benefit our community. It would provide a nearby and accessible place for families to perform burial rites promptly and visit their loved ones without the added burden of a long trip. Visiting cemeteries is a key aspect of our faith, offering a place for remembrance and prayer, and having this facility close by would make a significant difference.

The proposed location is ideal for our community's needs. As the population in our communities continues to expand, the need for a dedicated burial space becomes even more pressing. This cemetery would ensure that we have the necessary infrastructure to support our community both now and in the future.

I strongly urge you to approve this application. This is a noble cause, and one that would not be disruptive to the operations of the area. It will be a quiet, peaceful cemetery, even allowing for interfaith burials for the betterment of all members of our diverse community.

I humbly request you to approve this application, and I thank you for your time and consideration.

Sincerely,

Dear Rocky View County Planning Department,

I am writing to express my wholehearted support for the application to re-designate the property at SE 5-25-27-W4M to allow for the creation of a Muslim cemetery. As a member of the local Muslim community, I feel strongly about the importance and necessity of this project, not only for our present needs but for the future of our growing community.

Our community has seen significant growth over the past few years, with many families choosing to settle in this welcoming and vibrant area. Despite this growth, there remains a notable lack of local burial spaces that meet the specific needs of our faith. As Muslims, we have particular religious and cultural practices associated with burial, including the need for proximity to our community to facilitate timely burials according to Islamic rites.

The proposed location is particularly convenient due to its accessibility and proximity to our community. It will allow us to honor our deceased loved ones without the burden of traveling long distances, which can be both logistically challenging and emotionally taxing during times of grief. An integral part of Islamic faith is the practice of visiting cemeteries, spending time in them, and reflecting on life and the life of loved ones. These visits are not merely acts of remembrance; they are also moments of spiritual reflection and personal growth. Having a local cemetery would facilitate these important religious practices, allowing community members to engage without traveling large inconvenient distances.

In supporting this application, we are not only addressing an immediate need but also planning for the future. The Muslim population in our area is expected to continue growing, and with it, the demand for appropriate burial spaces. As well as this, portions of the Cemetery will be given for interfaith burial, allowing benefits for all members of our diverse Rocky View community.

I urge you to consider the positive impact that approving this application will have on our community. It is a compassionate and necessary step.

Thank you for your time and consideration.

Sincerely,

MUHAMMAD ZUBAIR (Name)

Dear Rocky View County Planning Department,

I am writing to express my strong support for the re-designation of the property at SE 5-25-27-W4M for the establishment of a cemetery. I live close to the proposed site and understand the profound need for such a facility in our area.

The communities in Rocky View and Calgary are experiencing significant growth. Currently, the closest Muslim cemetery is in Cochrane. The distance makes it difficult for families to honor their loved ones in a manner consistent with our religious practices.

Having a local Muslim cemetery would greatly benefit our community. It would provide a nearby and accessible place for families to perform burial rites promptly and visit their loved ones without the added burden of a long trip. Visiting cemeteries is a key aspect of our faith, offering a place for remembrance and prayer, and having this facility close by would make a significant difference.

The proposed location is ideal for our community's needs. As the population in our communities continues to expand, the need for a dedicated burial space becomes even more pressing. This cemetery would ensure that we have the necessary infrastructure to support our community both now and in the future.

I strongly urge you to approve this application. This is a noble cause, and one that would not be disruptive to the operations of the area. It will be a quiet, peaceful cemetery, even allowing for interfaith burials for the betterment of all members of our diverse community.

I humbly request you to approve this application, and I thank you for your time and consideration.

Sincerely,

Muhammad Junaid Iqbal (Name)

Rocky View County, AB T4A 0X2

Dear Rocky View County Planning Department,

I'm writing to support the application to re-designate the property at SE 5-25-27-W4M or a Muslim cemetery. As a Muslim resident of the local community, I can't stress enough how important this is for our community.

Our Muslim community is growing fast, and we need a local cemetery that meets our religious needs. Right now, the nearest option is in Cochrane, which makes it difficult for timely burials and inconvenient for families to take trips for remembrance.

The location being considered is convenient and close to our community, which would make it much easier for families to visit and honor their loved ones. Visiting cemeteries is an important part of our faith — we go there to reflect on life and remember those who have passed away. Having a dedicated space nearby would mean a lot to us.

Our community will keep growing, and with it, the need for burial space will only increase. Approving this application will help meet both current and future needs. This location is ideal, with close proximity to the largest concentrations of our community, and the need is evident.

Best regards,

Mohammed Khan (Name)

Dear Rocky View County Planning Department,

I am writing to express my wholehearted support for the application to re-designate the property at SE 5-25-27-W4M to allow for the creation of a Muslim cemetery. As a member of the local Muslim community, I feel strongly about the importance and necessity of this project, not only for our present needs but for the future of our growing community.

Our community has seen significant growth over the past few years, with many families choosing to settle in this welcoming and vibrant area. Despite this growth, there remains a notable lack of local burial spaces that meet the specific needs of our faith. As Muslims, we have particular religious and cultural practices associated with burial, including the need for proximity to our community to facilitate timely burials according to Islamic rites.

The proposed location is particularly convenient due to its accessibility and proximity to our community. It will allow us to honor our deceased loved ones without the burden of traveling long distances, which can be both logistically challenging and emotionally taxing during times of grief. An integral part of Islamic faith is the practice of visiting cemeteries, spending time in them, and reflecting on life and the life of loved ones. These visits are not merely acts of remembrance; they are also moments of spiritual reflection and personal growth. Having a local cemetery would facilitate these important religious practices, allowing community members to engage without traveling large inconvenient distances.

In supporting this application, we are not only addressing an immediate need but also planning for the future. The Muslim population in our area is expected to continue growing, and with it, the demand for appropriate burial spaces. As well as this, portions of the Cemetery will be given for interfaith burial, allowing benefits for all members of our diverse Rocky View community.

I urge you to consider the positive impact that approving this application will have on our community. It is a compassionate and necessary step.

Thank you for your time and consideration.

Sincerely,

RATA NADEEM (Name)

Dear Rocky View County Planning Department,

I am writing to express my strong support for the re-designation of the property at SE 5-25-27-W4M for the establishment of a cemetery. I live close to the proposed site and understand the profound need for such a facility in our area.

The communities in Rocky View and Calgary are experiencing significant growth. Currently, the closest Muslim cemetery is in Cochrane. The distance makes it difficult for families to honor their loved ones in a manner consistent with our religious practices.

Having a local Muslim cemetery would greatly benefit our community. It would provide a nearby and accessible place for families to perform burial rites promptly and visit their loved ones without the added burden of a long trip. Visiting cemeteries is a key aspect of our faith, offering a place for remembrance and prayer, and having this facility close by would make a significant difference.

The proposed location is ideal for our community's needs. As the population in our communities continues to expand, the need for a dedicated burial space becomes even more pressing. This cemetery would ensure that we have the necessary infrastructure to support our community both now and in the future.

I strongly urge you to approve this application. This is a noble cause, and one that would not be disruptive to the operations of the area. It will be a quiet, peaceful cemetery, even allowing for interfaith burials for the betterment of all members of our diverse community.

I humbly request you to approve this application, and I thank you for your time and consideration.

Sincerely,

The proposed location is ideal for our community's needs. As the population in our communities continues to expand, the need for a dedicated burial space becomes even more pressing. This cemetery would ensure that we have the necessary infrastructure to support our community both now and in the future.

I strongly urge you to approve this application. This is a noble cause, and one that would not be disruptive to the operations of the area. It will be a quiet, peaceful cemetery, even allowing for interfaith burials for the betterment of all members of our diverse community.

I humbly request you to approve this application, and I thank you for your time and consideration.

Sincerely,

Muhammad Sabir

Dear Rocky View County Planning Department,

I am writing to express my strong support for the re-designation of the property at SE 5-25-27-W4M for the establishment of a cemetery. I live close to the proposed site and understand the profound need for such a facility in our area.

The communities in Rocky View and Calgary are experiencing significant growth. Currently, the closest Muslim cemetery is in Cochrane. The distance makes it difficult for families to honor their loved ones in a manner consistent with our religious practices.

Having a local Muslim cemetery would greatly benefit our community. It would provide a nearby and accessible place for families to perform burial rites promptly and visit their loved ones without the added burden of a long trip. Visiting cemeteries is a key aspect of our faith, offering a place for remembrance and prayer, and having this facility close by would make a significant difference.

The proposed location is ideal for our community's needs. As the population in our communities continues to expand, the need for a dedicated burial space becomes even more pressing. This cemetery would ensure that we have the necessary infrastructure to support our community both now and in the future.

I strongly urge you to approve this application. This is a noble cause, and one that would not be disruptive to the operations of the area. It will be a quiet, peaceful cemetery, even allowing for interfaith burials for the betterment of all members of our diverse community.

Dear Rocky View County Planning Department,

I am writing to express my wholehearted support for the application to re-designate the property at SE 5-25-27-W4M to allow for the creation of a Muslim cemetery. As a member of the local Muslim community, I feel strongly about the importance and necessity of this project, not only for our present needs but for the future of our growing community.

Our community has seen significant growth over the past few years, with many families choosing to settle in this welcoming and vibrant area. Despite this growth, there remains a notable lack of local burial spaces that meet the specific needs of our faith. As Muslims, we have particular religious and cultural practices associated with burial, including the need for proximity to our community to facilitate timely burials according to Islamic rites.

The proposed location is particularly convenient due to its accessibility and proximity to our community. It will allow us to honor our deceased loved ones without the burden of traveling long distances, which can be both logistically challenging and emotionally taxing during times of grief. An integral part of Islamic faith is the practice of visiting cemeteries, spending time in them, and reflecting on life and the life of loved ones. These visits are not merely acts of remembrance; they are also moments of spiritual reflection and personal growth. Having a local cemetery would facilitate these important religious practices, allowing community members to engage without traveling large inconvenient distances.

In supporting this application, we are not only addressing an immediate need but also planning for the future. The Muslim population in our area is expected to continue growing, and with it, the demand for appropriate burial spaces. As well as this, portions of the Cemetery will be given for interfaith burial, allowing benefits for all members of our diverse Rocky View community.

I urge you to consider the positive impact that approving this application will have on our community. It is a compassionate and necessary step.

Thank you for your time and consideration.

Sincerely,

Dear Rocky View County Planning Department,

I'm writing to support the application to re-designate the property at SE 5-25-27-W4M or a Muslim cemetery. As a Muslim resident of the local community, I can't stress enough how important this is for our community.

Our Muslim community is growing fast, and we need a local cemetery that meets our religious needs. Right now, the nearest option is in Cochrane, which makes it difficult for timely burials and inconvenient for families to take trips for remembrance.

The location being considered is convenient and close to our community, which would make it much easier for families to visit and honor their loved ones. Visiting cemeteries is an important part of our faith — we go there to reflect on life and remember those who have passed away. Having a dedicated space nearby would mean a lot to us.

Our community will keep growing, and with it, the need for burial space will only increase. Approving this application will help meet both current and future needs. This location is ideal, with close proximity to the largest concentrations of our community, and the need is evident.

Rocky View County, AB T4A 0X2

Dear Rocky View County Planning Department,

I am writing to express my strong support for the re-designation of the property at SE 5-25-27-W4M for the establishment of a cemetery. I live close to the proposed site and understand the profound need for such a facility in our area.

The communities in Rocky View and Calgary are experiencing significant growth. Currently, the closest Muslim cemetery is in Cochrane. The distance makes it difficult for families to honor their loved ones in a manner consistent with our religious practices.

Having a local Muslim cemetery would greatly benefit our community. It would provide a nearby and accessible place for families to perform burial rites promptly and visit their loved ones without the added burden of a long trip. Visiting cemeteries is a key aspect of our faith, offering a place for remembrance and prayer, and having this facility close by would make a significant difference.

The proposed location is ideal for our community's needs. As the population in our communities continues to expand, the need for a dedicated burial space becomes even more pressing. This cemetery would ensure that we have the necessary infrastructure to support our community both now and in the future.

I strongly urge you to approve this application. This is a noble cause, and one that would not be disruptive to the operations of the area. It will be a quiet, peaceful cemetery, even allowing for interfaith burials for the betterment of all members of our diverse community.

I humbly request you to approve this application, and I thank you for your time and consideration.

Sincerely,

TAFSEER SHAH (Name)

Rocky View County, AB T4A 0X2

Dear Rocky View County Planning Department,

I'm writing to support the application to re-designate the property at SE 5-25-27-W4M or a Muslim cemetery. As a Muslim resident of the local community, I can't stress enough how important this is for our community.

Our Muslim community is growing fast, and we need a local cemetery that meets our religious needs. Right now, the nearest option is in Cochrane, which makes it difficult for timely burials and inconvenient for families to take trips for remembrance.

The location being considered is convenient and close to our community, which would make it much easier for families to visit and honor their loved ones. Visiting cemeteries is an important part of our faith — we go there to reflect on life and remember those who have passed away. Having a dedicated space nearby would mean a lot to us.

Our community will keep growing, and with it, the need for burial space will only increase. Approving this application will help meet both current and future needs. This location is ideal, with close proximity to the largest concentrations of our community, and the need is evident.

Best regards,

MUSTASA (Name)

Rocky View County, AB T4A 0X2

Dear Rocky View County Planning Department,

I am writing to express my wholehearted support for the application to re-designate the property at SE 5-25-27-W4M to allow for the creation of a Muslim cemetery. As a member of the local Muslim community, I feel strongly about the importance and necessity of this project, not only for our present needs but for the future of our growing community.

Our community has seen significant growth over the past few years, with many families choosing to settle in this welcoming and vibrant area. Despite this growth, there remains a notable lack of local burial spaces that meet the specific needs of our faith. As Muslims, we have particular religious and cultural practices associated with burial, including the need for proximity to our community to facilitate timely burials according to Islamic rites.

The proposed location is particularly convenient due to its accessibility and proximity to our community. It will allow us to honor our deceased loved ones without the burden of traveling long distances, which can be both logistically challenging and emotionally taxing during times of grief. An integral part of Islamic faith is the practice of visiting cemeteries, spending time in them, and reflecting on life and the life of loved ones. These visits are not merely acts of remembrance; they are also moments of spiritual reflection and personal growth. Having a local cemetery would facilitate these important religious practices, allowing community members to engage without traveling large inconvenient distances.

In supporting this application, we are not only addressing an immediate need but also planning for the future. The Muslim population in our area is expected to continue growing, and with it, the demand for appropriate burial spaces. As well as this, portions of the Cemetery will be given for interfaith burial, allowing benefits for all members of our diverse Rocky View community.

I urge you to consider the positive impact that approving this application will have on our community. It is a compassionate and necessary step.

Thank you for your time and consideration.

Sincerely,

Sanallah Khan Mohammed

I am writing to express my wholehearted support for the application to re-designate the property at SE 5-25-27-W4M to allow for the creation of a Muslim cemetery. As a member of the local Muslim community, I feel strongly about the importance and necessity of this project, not only for our present needs but for the future of our growing community.

Our community has seen significant growth over the past few years, with many families choosing to settle in this welcoming and vibrant area. Despite this growth, there remains a notable lack of local burial spaces that meet the specific needs of our faith. As Muslims, we have particular religious and cultural practices associated with burial, including the need for proximity to our community to facilitate timely burials according to Islamic rites.

The proposed location is particularly convenient due to its accessibility and proximity to our community. It will allow us to honor our deceased loved ones without the burden of traveling long distances, which can be both logistically challenging and emotionally taxing during times of grief. An integral part of Islamic faith is the practice of visiting cemeteries, spending time in them, and reflecting on life and the life of loved ones. These visits are not merely acts of remembrance; they are also moments of spiritual reflection and personal growth. Having a local cemetery would facilitate these important religious practices, allowing community members to engage without traveling large inconvenient distances.

In supporting this application, we are not only addressing an immediate need but also planning for the future. The Muslim population in our area is expected to continue growing, and with it, the demand for appropriate burial spaces. As well as this, portions of the Cemetery will be given for interfaith burial, allowing benefits for all members of our diverse Rocky View community.

I urge you to consider the positive impact that approving this application will have on our community. It is a compassionate and necessary step.

Thank you for your time and consideration.

Sincerely,

Mohamed Wahyaz Anji (Name)

Dear Rocky View County Planning Department,

I'm writing to support the application to re-designate the property at SE 5-25-27-W4M or a Muslim cemetery. As a Muslim resident of the local community, I can't stress enough how important this is for our community.

Our Muslim community is growing fast, and we need a local cemetery that meets our religious needs. Right now, the nearest option is in Cochrane, which makes it difficult for timely burials and inconvenient for families to take trips for remembrance.

The location being considered is convenient and close to our community, which would make it much easier for families to visit and honor their loved ones. Visiting cemeteries is an important part of our faith — we go there to reflect on life and remember those who have passed away. Having a dedicated space nearby would mean a lot to us.

Our community will keep growing, and with it, the need for burial space will only increase. Approving this application will help meet both current and future needs. This location is ideal, with close proximity to the largest concentrations of our community, and the need is evident.

Best regards,

Steel Bohan (Name)

Dear Rocky View County Planning Department,

I am writing to express my strong support for the re-designation of the property at SE 5-25-27-W4M for the establishment of a cemetery. I live close to the proposed site and understand the profound need for such a facility in our area.

The communities in Rocky View and Calgary are experiencing significant growth. Currently, the closest Muslim cemetery is in Cochrane. The distance makes it difficult for families to honor their loved ones in a manner consistent with our religious practices.

Having a local Muslim cemetery would greatly benefit our community. It would provide a nearby and accessible place for families to perform burial rites promptly and visit their loved ones without the added burden of a long trip. Visiting cemeteries is a key aspect of our faith, offering a place for remembrance and prayer, and having this facility close by would make a significant difference.

The proposed location is ideal for our community's needs. As the population in our communities continues to expand, the need for a dedicated burial space becomes even more pressing. This cemetery would ensure that we have the necessary infrastructure to support our community both now and in the future.

I strongly urge you to approve this application. This is a noble cause, and one that would not be disruptive to the operations of the area. It will be a quiet, peaceful cemetery, even allowing for interfaith burials for the betterment of all members of our diverse community.

I humbly request you to approve this application, and I thank you for your time and consideration.

Sincerely,

Dear Rocky View County Planning Department,

I am writing to express my strong support for the re-designation of the property at SE 5-25-27-W4M for the establishment of a cemetery. I live close to the proposed site and understand the profound need for such a facility in our area.

The communities in Rocky View and Calgary are experiencing significant growth. Currently, the closest Muslim cemetery is in Cochrane. The distance makes it difficult for families to honor their loved ones in a manner consistent with our religious practices.

Having a local Muslim cemetery would greatly benefit our community. It would provide a nearby and accessible place for families to perform burial rites promptly and visit their loved ones without the added burden of a long trip. Visiting cemeteries is a key aspect of our faith, offering a place for remembrance and prayer, and having this facility close by would make a significant difference.

The proposed location is ideal for our community's needs. As the population in our communities continues to expand, the need for a dedicated burial space becomes even more pressing. This cemetery would ensure that we have the necessary infrastructure to support our community both now and in the future.

I strongly urge you to approve this application. This is a noble cause, and one that would not be disruptive to the operations of the area. It will be a quiet, peaceful cemetery, even allowing for interfaith burials for the betterment of all members of our diverse community.

I humbly request you to approve this application, and I thank you for your time and consideration.

Sincerely,

Mubashshir Nasir (Name)

Dear Rocky View County Planning Department,

I am writing to express my wholehearted support for the application to re-designate the property at SE 5-25-27-W4M to allow for the creation of a Muslim cemetery. As a member of the local Muslim community, I feel strongly about the importance and necessity of this project, not only for our present needs but for the future of our growing community.

Our community has seen significant growth over the past few years, with many families choosing to settle in this welcoming and vibrant area. Despite this growth, there remains a notable lack of local burial spaces that meet the specific needs of our faith. As Muslims, we have particular religious and cultural practices associated with burial, including the need for proximity to our community to facilitate timely burials according to Islamic rites.

The proposed location is particularly convenient due to its accessibility and proximity to our community. It will allow us to honor our deceased loved ones without the burden of traveling long distances, which can be both logistically challenging and emotionally taxing during times of grief. An integral part of Islamic faith is the practice of visiting cemeteries, spending time in them, and reflecting on life and the life of loved ones. These visits are not merely acts of remembrance; they are also moments of spiritual reflection and personal growth. Having a local cemetery would facilitate these important religious practices, allowing community members to engage without traveling large inconvenient distances.

In supporting this application, we are not only addressing an immediate need but also planning for the future. The Muslim population in our area is expected to continue growing, and with it, the demand for appropriate burial spaces. As well as this, portions of the Cemetery will be given for interfaith burial, allowing benefits for all members of our diverse Rocky View community.

I urge you to consider the positive impact that approving this application will have on our community. It is a compassionate and necessary step.

Thank you for your time and consideration.

Sincerely,

Ibraheem Nasir (Name)

Dear Rocky View County Planning Department,

I'm writing to support the application to re-designate the property at SE 5-25-27-W4M or a Muslim cemetery. As a Muslim resident of the local community, I can't stress enough how important this is for our community.

Our Muslim community is growing fast, and we need a local cemetery that meets our religious needs. Right now, the nearest option is in Cochrane, which makes it difficult for timely burials and inconvenient for families to take trips for remembrance.

The location being considered is convenient and close to our community, which would make it much easier for families to visit and honor their loved ones. Visiting cemeteries is an important part of our faith — we go there to reflect on life and remember those who have passed away. Having a dedicated space nearby would mean a lot to us.

Our community will keep growing, and with it, the need for burial space will only increase. Approving this application will help meet both current and future needs. This location is ideal, with close proximity to the largest concentrations of our community, and the need is evident.

Best regards,
