 - i. The time taken to erect or dismantle any temporary structures shall be no sooner or later than **7 days** before or after a scheduled Special Function event.
12. That the operation of the Special Function Business shall not generate excessive or unacceptable increases in traffic within the neighbourhood or immediate area.
13. That the Special Function Business shall not generate noise, smoke, steam, odour, dust, fumes, exhaust, vibration, heat, glare, or refuse matter considered offensive or excessive by the Development Authority, and at all times, the privacy of the adjacent resident dwellings shall be preserved. The Special Function Business use shall not, in the opinion of the Development Authority, unduly offend or otherwise interfere with neighbouring or adjacent residents.
14. That all on-site lighting shall be dark sky, and all private lighting, including site security lighting and parking area lighting, shall be designed to conserve energy, reduce glare, and reduce uplift. All development shall demonstrate lighting design that reduces the extent of spill-over glare, and eliminates glare as viewed from nearby residential properties.
15. That if this permit is not issued by **October 31, 2021** or the approved extension date, then this approval is null and void and the Development Permit shall not be issued.
16. That this Development Permit, once issued, shall be valid until **April 30, 2022**.

Advisory:

17. That the County's Noise Bylaw C-5772-2003 shall be adhered to at all times.
18. That Building Permit(s) shall be obtained from Building Services prior to the erection of any temporary event tents and prior to occupancy of the existing private riding arena for special event purposes, as required under the Alberta Building Code.

19. That all other government compliances and approvals are the sole responsibility of the Applicant/Owner.
 - i. That the Applicant/Owner shall obtain any required Alberta Health Services requires for events and food handling onsite, prior to commencement of operation.
 - ii. That if the water well is to be used for potable water for events, the Applicant/Owner shall obtain a commercial water well license from Alberta Environment and Parks prior to commencement of the operation.

File: PRDP20210276 (03913031)

MOVED by Member Kamachi that Development Permit Application PRDP20210276 be approved with the conditions noted in Attachment 'A'.

Description:

1. That construction of a dwelling, single detached, within a flood hazard area (flood fringe), may commence on the subject site, in accordance with the approved application and drawings, as prepared by Flechas Architecture, Project Number 2009; dated January 14, 2021, Dwgs. A0.1, A1.1-A1.3, A2.1-A2.4, A3.1-3.2; as amended, and conditions of approval.

Prior to Issuance:

2. That prior to release of this permit, the Applicant/Owner shall submit a geotechnical report conducted and stamped by a professional geotechnical engineer, that confirms that there is a minimum contiguous developable area suitable for the development and recommend any flood mitigation measures to reduce potential damage from a flood event, in accordance with Section 203 of the Land Use Bylaw.
3. That prior to release of this permit, the Applicant/Owner shall contact County Road Operations with haul details for materials and equipment needed during construction/site development to confirm if Road Use Agreements will be required for any hauling along the County road system and to confirm the presence of County road restrictions
 - i. Written confirmation shall be received from County Road Operations confirming the status of this condition. Any required agreement or permits shall be obtained unless otherwise noted by County Road Operations.

Permanent:

4. That the first floor of the proposed dwelling, single detached shall be located at or above the 1:100 year flood level plus 0.50 m (1.64 ft.) freeboard and that any mechanical or electrical equipment within the dwelling, single detached shall be located at or above the designated flood level. *Note: the current Flood Elevation Level for the property is 1291.01 m.*
5. That until Municipal waste and water servicing within the hamlet service area is available, there shall be interim potable water (i.e. well or cistern) and wastewater servicing (i.e. collection or treatment systems) provided by the Applicant/Owner to the subject site.
6. That no topsoil shall be removed from the site. All topsoil shall be retained on-site and shall be seeded after building construction is complete, as part of site restoration.
7. That minimal tree clearing shall occur within any part of the riparian setback and minimal vegetation shall be disturbed within a minimum of 10.00 m (32.81 ft.) from the top of bank or furthest extent of a wetted area. Any existing trees and terrain shall be retained onsite except as included within the development permit approval or required to meet conditions of this permit.
 - i. Any disturbed areas shall be replanted with vegetation similar to existing pre-development ground cover upon development completion.
8. That there shall be no more than 2.00 m (6.56 ft.) of excavation or 1.00 m (3.28 ft.) of fill adjacent to or within 15.00 m (49.21 ft.) of the proposed dwelling under construction, unless a separate Development Permit has been issued for additional fill.
9. That the Applicant/Owner shall be responsible for rectifying any adverse effect on adjacent lands from drainage alteration.
10. That it is the Applicant/Owner's responsibility to obtain and display a distinct municipal address in accordance with the County Municipal Addressing Bylaw (Bylaw C-7562-2016), for each dwelling unit located on the subject site, to facilitate accurate emergency response.
11. That any plan, technical submission, agreement, or other matter submitted and approved as part of the Development Permit application or submitted in response to a Prior to Issuance or Occupancy condition, shall be implemented and adhered to in perpetuity.

Advisory:

12. That the Applicant/Owner shall contact County Road Operations and submit application for approval for any new installation or alteration of any driveway/approach for the subject property, prior to commencing any work on the driveway/approach, if required.
13. That during construction, any required temporary fencing should be erected no more than 3.00 m (9.84 ft.) from the proposed building, to help prevent disturbance of the existing trees and vegetation.
14. That during construction of the building, all construction and building materials shall be maintained onsite, in a neat and orderly manner. Any debris or garbage shall be stored/placed in garbage bins and disposed at an approved disposal facility.

15. That the Applicant/Owner shall incorporate best management practices for erosion and sedimentation control onsite. These practices shall be followed for all construction activities performed on the site to minimize impacts to adjacent lots and nearby water courses.
16. That the site shall remain free of restricted and noxious weeds and maintained in accordance with the Alberta Weed Control Act [Statutes of Alberta, 2008 Chapter W-5.1, December 2017].
17. That it is recommended that the Applicant/Owner test the water quality of the existing groundwater, to ensure a safe, adequate supply of potable water.
18. That a Building Permit and sub-trade permits shall be obtained from Building Services, prior to any construction taking place, using the Single Family Dwelling checklist and shall include written submission from a professional engineer, addressing design flood proofing measures for the structure.
 - i. That the roofing material shall be constructed of fire resistant materials in compliance with the Alberta Building Code.
19. That flood proofing measures shall be followed in accordance with the Alberta Building Code, good engineering practice and recommendations stated in the Bragg Creek Areas Structure Plan.
20. That if the development authorized by this Development Permit is not commenced with reasonable diligence within twelve (12) months from the date of issue, and completed within twenty-four (24) months of the issue, the permit is deemed to be null and void, unless an extension to this permit shall first have been granted by the Development Officer.
21. That any other federal, provincial or County permits, approvals, and/or compliances, are the sole responsibility of the Applicant/Owner.
22. That if this Development Permit is not issued by **JUNE 30, 2021** or the approved extension date, then this approval is null and void and the Development Permit shall not be issued.

Note: That the Applicant/Owner shall be responsible for all Alberta Environment & Parks approvals/compensation, if any wetland is impacted by the proposed development.

3. That prior to release of this permit, the Applicant/Owner shall obtain and submit proof of \$5,000,000.00 liability insurance with the County named as an additional insured for the works associated with the permit, to the satisfaction of the County.
4. That prior to release of this permit, the Applicant/Owner shall submit proof of \$2,000,000.00 commercial vehicle insurance, for the truck hauling related to the works associated with the permit.
5. That prior to release of this permit, the Applicant/Owner(s) shall submit a Letter of Credit or refundable security in accordance with the County Policy C-407. The requirement shall be \$1,250.00/disturbed acre of the development area.

6. That prior to release of this permit, the Applicant/Owner shall submit an Erosion Sediment Control Plan, in accordance with the County's Servicing Standards. *Note: based on the size of the disturbed area, a full ESC Report is required.*
7. That prior to release of this permit, the Applicant/Owner shall submit a stamped and endorsed statement from a Professional Agrologist or Certified Crop Advisor, to the satisfaction of the County. The statement shall confirm the soil quality improvements achieved by the proposed addition of topsoil and the anticipated agricultural benefits, to the satisfaction of the County.
8. That prior to release of this permit, the Applicant/Owner submit a soil testing analysis, to the satisfaction of the County, completed on the proposed topsoil, which includes where the topsoil originated from and confirm that:
 - i. Texture is balanced and not over 40.00% clay;
 - ii. Organic matter is a minimum of 3.00%, and equal to or greater than the organic matter of the soil on the application site;
 - iii. SAR/EC rating is at least "good"; and
 - iv. PH value is in the "acceptable" range for crop growth.
9. That prior to release of this permit, the Applicant/Owner shall contact County Road Operations with haul details for materials and equipment needed during construction/site development to confirm if Road Use Agreements will be required for any hauling along the County road system and to confirm the presence of County road ban restrictions.
 - i. The Applicant shall also discuss and submit a New Approach application to County Road Operations, for the proposed gravel approach off Range Road 282.
 - ii. Written confirmation shall be received from County Road Operations, confirming the status of this condition. Any agreement or permit shall be issued by the County, unless otherwise confirmed by County Road Operations.
10. That prior to release of this permit, the Applicant/Owner shall submit a limited scope storm drainage report, prepared by a qualified stormwater management engineering professional, to the satisfaction of the County, confirming:
 - i. Stormwater management requirements and recommendations to accommodate the construction period;
 - ii. Verify that post development site grades will not result in impacts to downstream properties or infrastructure;
 - iii. The report shall include recommendations for any short term or permanent stormwater management facilities on the site.

Permanent:

11. That any plan, technical submission, agreement, matter, or understanding submitted and approved as part of the application or in response to a Prior to Release condition, shall be implemented and adhered to in perpetuity.
 - i. That if any future development occurs on the subject development graded area, the Applicant/Owner shall obtain any required approvals from the County, with the proper supporting technical documentation approved by the County, prior to commencement. *Note: For future applications, unless otherwise conditioned, the Applicant/Owner shall register a Caveat on title, including a site plan attachment, stating that the identified area may be limited/restricted for future development, with the exception of minor agricultural pursuits.*
12. That if conditions of this permit are not satisfied, the County may draw upon the Letter of Credit or Refundable Security, once registered with the County, without recourse to the Applicant/Owner, to cover the costs in surface reclamation of any or all of the disturbed areas or costs involved in actions necessary to ensure compliance with any other conditions of this permit.
13. That upon completion of the proposed development, the Applicant/Owners shall submit an as-built survey, confirming that the development proposal and post grades align with the supporting technical submissions for the file.
14. That the Applicant/Owner shall conduct a completion soil testing, by a qualified professional, at the destination location of the topsoil material, at a frequency of 1 test per 10,000 cu. m. (with standard processing times).
 - i. Texture is balanced and not over 40.00% clay;
 - ii. Organic matter is a minimum of 3.00%, and equal to or greater than the organic matter of the soil on the application site;
 - iii. SAR/EC rating is at least "good"; and
 - iv. PH value is in the "acceptable" range for crop growth.

The results shall be recorded and summarized to confirm compliance within the standards specified above. Once completed, the recorded results shall be submitted to the County, for review and acceptance. Should the results not be within tolerance of the standards specified above, the County reserves the right to suspend all hauling activities and not permit further material to be placed at the destination location.
15. That for any areas with greater than 1.20 m (3.93 ft.) of topsoil placed, a Deep Fill report shall be submitted to County, in accordance with County Servicing Standards, upon completion.
16. That no native topsoil shall be removed from the site.
17. That it shall be the responsibility of the Applicant/Owners to ensure the material has been placed in a safe manner that does not cause slope stability issues, slumping, or any other related safety issues.
18. That the Applicant/Owners shall ensure no organic material is buried and capped in a manner that will cause methane gas related issues.
19. That the material shall not contain large concrete, large rocks, rebar, asphalt, building materials, organic materials, or other metal.

20. That the Applicant/Owners shall take effective measures to control dust on the parcel so that dust originating therein shall not cause annoyance or become a nuisance to adjoining property owners and others in the vicinity.
 - i. That no potable water shall be used for grading and/or construction purposes.
 - ii. That water trucks shall be available at all times onsite to control dust blowing from the site and/or roadways.
 - iii. That if at any time the removal/placement of the fill creates a visible dust problem, the removal or handling of the fill shall cease immediately until remedial measures are taken.
21. That any material entering to or leaving from the site, shall be hauled on/off in a covered trailer/truck, to help prevent blowing of dust/small rocks onto the road or cause issues with other vehicles on the road.
 - i. That the clean-up of any mud tracking and/or dirt that enters onto adjacent Highway and/or County roads during hauling shall be the responsibility and cost of the Applicant/Owner for clean-up.
22. That the proposed development graded area, as per the approved application, shall be spread and seeded to native vegetation or farm crop, to the satisfaction of the County, upon completion.
23. That the County staff or agents shall have access to the site at all times.
24. That the Applicant/Owners shall be responsible for rectifying any adverse effect on adjacent lands from drainage alteration.
25. That the subject land shall be maintained in a clean and tidy fashion at all times, and all waste material shall be deposited and confined in an appropriate enclosure. All waste material shall be regularly removed from the property to prevent any debris from blowing onto adjacent property or roadways.

Advisory:

26. That the Applicant/Owners shall be responsible for all required payments of 3rd party reviews and/or inspections as per the Master Rates Bylaw.

Note: For any 3rd party review work completed prior to Issuance of the Development Permit, the invoices shall be paid prior to the Development Permit being issued. For any work completed after Permit issuance, the invoices shall be paid as per the required deadline.
27. That the subject development shall conform to the County's Noise Bylaw C-5773-2003 in perpetuity.
28. That the site shall adhere to any requirements of Instrument #751 098 545 [Utility Right of Way (UROW)]. Any impact to the UROW, the Applicant/Owner shall contact Rocky View Gas Co-op, prior to commencement.
29. That the site shall remain free of restricted and noxious weeds and be maintained in accordance with the Alberta Weed Control Act [*Statutes of Alberta, 2008 Chapter W-5.1; Current as of December 15, 2017*].

30. That any other government permits, approvals, or compliances are the sole responsibility of the Applicant/Owners.

- i. The Applicant/Owner shall submit a copy of the issued Roadside Development Permit from Alberta Transportation, to the County once obtained, for hauling activities.

Note: The Applicant/Owner shall be responsible for all Alberta Environment approvals/compensation if any wetland is impacted by the placement of the topsoil, prior to commencement.

E-19 Division 5 - Single-lot Regrading
File: PRDP20203812 (04324016)

Presenter: Devon Terrant, the Applicant

MOVED by Member Boehlke that proposed condition 2 for development application PRDP20203812 be deleted in its entirety.

Carried

MOVED by Member Hanson that Development Permit Application PRDP20203812 be approved with the conditions noted in Attachment 'A', as amended.

Description:

1. That single-lot regrading and the placement of clean topsoil shall be permitted in general accordance with the site plan submitted with the application and includes:
 - i. Total area of approximately $\pm 31,965$ sq. m (± 7.89 acres) and placement of approximately 10,000.00 cubic meters of clean topsoil not exceeding ± 0.30 m (12.00 in) in depth.

Prior to Release:

2. That prior to release of this permit, the Applicant/Owner(s) shall submit a Letter of Credit or refundable security in accordance with County Policy C-407. The requirement shall be \$5,000.00/disturbed acre of the development area.
3. That prior to release of this permit, the Applicant/Owner shall contact County Road Operations with haul details for materials and equipment needed during construction/site development to confirm if Road Use Agreements will be required for any hauling along the County road system and to confirm the presence of County road ban restrictions.
 - i. Written confirmation shall be received from County Road Operations confirming the status of this condition. Any required agreement or permits shall be obtained unless otherwise noted by County Road Operations.

4. That prior to release of this permit, the Applicant/owner shall submit a limited-scope site-specific storm water management plan for the subject lands, in accordance with County Servicing Standards. The report shall be stamped by a qualified professional and can be limited to addressing the following:
 - i. The report shall include both pre- and post-development site grading in the vicinity of the work, and shall confirm post-development site run-off characteristics;
 - ii. The report shall evaluate possible impacts the proposed placement of fill will have on adjacent lands. The report shall provide mitigating measures, if necessary, for any impacts the work may have on adjacent lands; and
 - iii. The report shall provide Erosion and Sedimentation Control measures for the proposed activities.
5. That prior to release of this permit, the Applicant/Owner shall submit a stamped and endorsed statement from a Professional Agrologist, or Certified Crop Advisor, confirming the soil quality improvements achieved by the proposed addition of topsoil. The anticipated agricultural benefits must be identified.
6. That prior to release of this permit, the Applicant/Owner shall submit a soil testing analysis, completed on the proposed topsoil, that includes where the topsoil originated from. The report and approval shall be to the satisfaction of the County. The soil analysis report will need to confirm that:
 - i. Texture is balanced and not over 40% clay; and
 - ii. Organic matter is a minimum of 3%, and equal to or greater than the organic matter of the soil on the application site; and
 - iii. SAR/EC rating is at least 'good'; and
 - iv. PH value is in the 'acceptable' range for crop growth.

Permanent:

7. That any plan, technical submission, agreement, matter, or understanding submitted and approved as part of the application or in response to a Prior to Release condition, shall be implemented and adhered to in perpetuity.
8. That if conditions of this permit are not satisfied, the County may draw upon the Letter of Credit or Refundable Security, once registered with the County, without recourse to the Applicant/Owner, to cover the costs in surface reclamation of any or all of the disturbed areas or costs involved in actions necessary to ensure compliance with any other conditions of this permit.
9. That upon completion of the proposed development, the Applicant/Owners shall submit an as-built survey, confirming that the development proposal and post grades align with the supporting technical submissions for the file.

10. That the Applicant/Owner shall conduct a completion soil testing, by a qualified professional, at the destination location of the topsoil material, at a frequency of 1 test per 10,000 cu. m. (with standard processing times).

- i. Texture is balanced and not over 40.00% clay;
- ii. Organic matter is a minimum of 3.00%, and equal to or greater than the organic matter of the soil on the application site;
- iii. SAR/EC rating is at least "good"; and
- iv. PH value is in the "acceptable" range for crop growth.

The results shall be recorded and summarized to confirm compliance within the standards specified above. Once completed, the recorded results shall be submitted to the County, for review and acceptance. Should the results not be within tolerance of the standards specified above, the County reserves the right to suspend all hauling activities and not permit further material to be placed at the destination location.

11. That for any areas with greater than 1.20 m (3.93 ft.) of topsoil placed, a Deep Fill report shall be submitted to County, in accordance with County Servicing Standards, upon completion.
12. That no native topsoil shall be removed from the site.
13. That it shall be the responsibility of the Applicant/Owners to ensure the material has been placed in a safe manner that does not cause slope stability issues, slumping, or any other related safety issues.
14. That the Applicant/Owners shall ensure no organic material is buried and capped in a manner that will cause methane gas related issues.
15. That the material shall not contain large concrete, large rocks, rebar, asphalt, building materials, organic materials, or other metal.
16. That the Applicant/Owners shall take effective measures to control dust on the parcel so that dust originating therein shall not cause annoyance or become a nuisance to adjoining property owners and others in the vicinity.
- i. That if at any time the removal/placement of the fill creates a visible dust problem, the removal or handling of the fill shall cease immediately until remedial measures are taken.
17. That any material entering to or leaving from the site, shall be hauled on/off in a covered trailer/truck, which will prevent blowing of dust/small rocks onto the road or cause issues with other vehicles on the road.
- i. That the clean-up of any mud tracking and/or dirt that enters onto any County roads during hauling, shall be the responsibility and cost of the Applicant/Owner for clean-up.
18. That the proposed development graded area, as per the approved application, shall be spread and seeded to native vegetation or farm crop, to the satisfaction of the County, upon completion.
19. That the Applicant/Owners shall be responsible for rectifying any adverse effect on adjacent lands from drainage alteration.

20. That the subject land shall be maintained in a clean and tidy fashion at all times and all waste material shall be deposited and confined in an appropriate enclosure. All waste material shall be regularly removed from the property to prevent any debris from blowing onto adjacent property or roadways. That all garbage and waste shall be stored in weatherproof and animal proof containers and be in a location easily accessible to containerized garbage pickup.
21. That if this permit is not issued by **AUGUST 31, 2021** or the approved extension date, then this approval is null and void and the Development Permit shall not be issued.
22. That once this Development Permit is issued, the proposed development of single-lot regrading and placement of clean fill/topsoil shall be completed within twelve (12) months of the date of issue.

Advisory:

23. That the site shall remain free of restricted and noxious weeds and be maintained in accordance with the Alberta Weed Control Act [*Statutes of Alberta, 2008 Chapter W-5.1; Current as of December 15, 2017*].
24. That the subject development shall conform to the County's Noise Bylaw C-5773-2003 in perpetuity.
25. That any other government permits, approvals, or compliances are the sole responsibility of the Applicant/Owner.
