

ALUS Partnership Advisory Committee

Subject:	2025 Approved Projects Update
Date:	June 12, 2025
Presenter:	Matt Chilakos, Agricultural Services Officer
Department:	Agriculture & Environmental Services

REPORT SUMMARY

This report provides an overview of the projects that have been approved by the PAC in 2025.

ADMINISTRATION'S RECOMMENDATION

THAT the 2025 Approved Projects Update report be received as information.

BACKGROUND

The Alternative Land Use Services program (ALUS) is a community developed, farmer delivered program that gives Canadians the opportunity to play an active role in building a healthier environment by providing support to farmers and ranchers to enhance and maintain ecosystem services. ALUS has a simple goal: create a healthy working landscape that sustains agriculture, wildlife, and natural spaces for all Canadians.

Farmers and ranchers can submit applications for projects which enhance or conserve ecosystem services on their farm or ranch. The Partnership Advisory Committee (PAC) reviews these applications and a select few are implemented in the corresponding year.

DISCUSSION

Four approved project updates that are being presented;

1. Project #2025-01, wetland/spring fencing, adding off-site waterer, tree plantings
2. Project #2025-02, protecting wetland
3. Project #2025-03, augment fencing sections along creek
4. Project #2025-04, off-site waterer, fence off dugout

ALTERNATE DIRECTION

Administration has no alternate direction for the Board's consideration.
