Hi Althea

Our project is to improve food storage and upgrade kitchen. Our freezer quit working in the summer of 2020 and we lost everything that was in it. We are asking FCC for funds to purchase a freezer and a commercial dishwasher that also sanitizes.

The total cost we are asking for is \$9,500.00 which includes the cost of the freezer, supply and installation of the dishwasher as well as upgrade our electrical panel and retrofit the plumbing to accommodate the new dishwasher. This price also includes under counter preparation work and finishing work after the installation of the dishwasher, GST and freight costs for both appliances.

We will receive an email regarding the outcome of the funding request (full or partial funding) no later than the end of August 2021. If we receive funding our project must be completed after August 31, 2021 and before December 31, 2023.

I hope I've given you all the information you require. If you need more information, please call me at

Thank you for all your help earlier today, it's very much appreciated.
