To whom it may concern,

I am emailing you because I paid my taxes about a week late on September 9, 2020. We were given up until August 31, 2020 and the reason I was unable to pay on that day is because I am a truck driver and I was stuck in the states waiting for a load for about 2 weeks. I didn't have work for about 5 months before that due to COVID-19 since my work requires me to cross the border to transport loads. I went to the states with a delivery mid-late August and I believed that I would be back in time. When I returned because my load got delayed and cancelled, I was forced to borrow money from a friend to pay for the taxes. I have been a loyal tax payer for many years and not once have I missed or delayed a payment when it was due, I am behind on a lot of bills because I suddenly lost work due to COVID. I wanted to request that if it's possible, could the late fees be dropped since I still have other loans that I need to pay for and need to catch up because of the lost work due to COVID-19.

Thank you very much.
