Good Morning Crystal;

I am submitting to you all the info you require.

I [REDACTED] has been a resident of the MD of Rockyview since 1994. I have never been late for my payments since conception. This has been an address confusion situation. If you notice on the Statement of Account they had the property address which is the new address which should have been issued and replaced with this as they knew the address was changing. When I did my due diligence by paying my taxes as I did not receive any statement of account... I did this by calling in.. I also submitted a new address request by you people. Which was done before I received the Overdue Tax Account Reminder.

I would like the penalty charges reversed and or waived as this was an oversight on both parties and as I have been diligent also in never being late with my taxes.

In my opinion, the MD of Rockyview should be showing more empathy, morality and compassion for all the residents of Rocky View with this pandemic going on. There are many people in this County that are struggling to make ends meet.

Best Regards;
[REDACTED]
