Dear Officer

Hope all is well.

I got an over due tax reminder with 12% penalty included.

Today I have called the Tax officer and requested actual statement and brought it to her attention that I did not receive the actual bill or invoice for the property tax and now this letter comes in with a penalty.

Today through my on line account I have paid the full bill on line including the penalties.

I would like to request the board and appeal the reimbursement for the penalty please.

Kindly consider my request one last time as I did not got the mail for the actual invoice.

I will Appreciate board decision to support me during this hard times

Kind Regards
