

### #3: RECOMMENDATIONS FOR RED TAPE REDUCTION

|   |   |   |  |   |
|---|---|---|--|---|
| <p>Review County Area Structure Plans and other high level policies to determine if policy amendments are required to support economic recovery due to the COVID-19 pandemic.</p> |   | <p>Commence in Q1 2021</p>                                    | <p>Report back to CAO by Q3 2021.</p> <p>In 2021, 11 ASPs were either newly developed or being reviewed. Administration has worked with Council to prioritize these ASPs according to the existing growth strategy and CMRB considerations. Direction on many of these ASPs was given in late-2021 to early-2022. We are working to progress the Springbank, Conrich Future Policy Area and Janet Long-term Development Area ASP amendments over the next few months. We have started the process of reviewing all ASPs that are severely outdated (above-mentioned and Bearspaw and Bragg Creek Expansion Strategy), and we will attempt to improve how high level policies are implemented through the LUB, which hasn't been coordinated properly before.</p> |  <p>ONGOING</p>                  |
| <p>As part of the Direct Control District review, identify amendments to assist with COVID recovery.</p>  | <p>Residents<br/>Businesses</p>                     | <p>Part of current Direct Control District Review Process</p> | <p>Report back to CAO by Q4 2021.</p> <p>We have placed the DC Bylaw Review on hold as the Land Use Bylaw and guiding statutory plan documents are in flux. It is questionable whether a review should happen until we have higher level direction from the CMRB and Council on growth and development.</p>  |  <p>REVIEWED &amp; PAUSED</p>    |
| <p>As part of regular, ongoing review of the Land Use Bylaw, identify amendments to assist with COVID recovery.</p>   | <p>Business Owners<br/>Developers<br/>Residents</p> | <p>Ongoing</p>  | <p>Pending completion of previous items, identify actions and prepare amendments (if any) to Land Use Bylaw for Council consideration by Q1 2022.</p> <p>As above, a thorough review and over 100 amendments have been identified within the LUB, a future report to Council will detail changes and propose a process for the updates and ongoing amendment tracking.</p>   |  <p>REVIEWED &amp; ONGOING</p> |
