This letter is in regards to the late fees that were acquired on our property taxes from July 1, 2022 - July 13, 2022. We went online to pay our property taxes in full on July 13, 2022 honestly thinking that we were 2 weeks early to pay them. Not sure how we got the month mixed up but we filed it away and did not realize that it was past due until we were notified via the overdue letter in the mail. We apologize for paying it late and understand that fees are generated past due dates but 12 % on the principal amount is absolutely absurd being that we were late by 13 days. We are asking that this fee be waived, or at least reduced, as this was an honest mistake and the full amount of our property taxes are always paid on time and in a lump sum annual payment. We would like to have these charges revoked or reduced and were told that this would be reviewed by council in September of 2022. Please advise.

Thank you,
